Notes on tables 1.B.2.1.1 to 1.B.2.1.14

Germany:

- a) The figures for Germany and 1990 refer to the territory of the former Federal Republic of Germany including West Berlin, i.e. without the former German Democratic Republic. The figures from 1991 refer to the actual territory of united Germany. However, organizational problems related to the transition led to serious undercounts of offences in 1991 and 1992.
- b) If the same offender commits several different offences, he will be counted as a suspect under each offence; otherwise, he will be counted only once.

Greece: There are unexplained inconsistencies between the numbers indicated in tables 1.B.1 and 1.B.2.1.

Ireland: At least one suspect is being counted for each offence cleared (no precise counts of suspects are available).

Latvia:

- a) The figures refer to prosecuted offenders.
- b) There were several changes in offence definitions in 1993-94 which might have affected the numbers of recorded offenses.

Poland: If the same suspect commits, with one same act, several offences, or if he/she commits several offences of the same kind, he/she will be counted only under the most serious one. Otherwise, the suspect will be counted under all offences.

The F.Y.R.O. Macedonia: There may be unspecified differences between the offence definitions used in these tables and those used in tables 1.B.1.

England & Wales: Figures refer to those cautioned by the police or prosecuted in the courts.
