Notes on tables 3.B.2.1 to 3.B.2.3

Albania: Figures relate to 1996.

Belgium: Figures do not contain decisions involving the hospitalisation of mentally ill offenders or the deferral (suspension) of the pronouncement of a sentence. The very low proportion of persons under 18 years of age among those convicted is due to the fact that minors are, normally, dealt with under specific protective regulations.

France: Figures relate to 1996. Convictions of minors are undercounted, especially in relation to theft and assault.

Switzerland: Persons under 18 years of age are not included.
