Notes on tables 3.B.4.1 to 3.B.4.9

Austria: The figures given for indeterminate prison sentences contain combinations of fixed prison sentences and indeterminate sentences (either suspended or unsuspended); They also contain conditional sentences, which are indeterminate by their very nature.

Bulgaria: Figures relate to 1996.

Cyprus: Other length = 6 to 60 months (not included in these tables).

Estonia: Under 12 months = 3 months and less than 12 months.
60 and less than 120 months = over 60 months until 120 months (incl.).
120 months and over = over 120 months.

France: Figures relate to 1996.

Germany: Figures relate to sentences of more than 6 months and up to 12 months. The category “indeterminate sanctions/measures” refers to specific measures which are ordered either in addition to a prison sentence or instead of a prison sentence (*Maßregeln der Sicherung und Besserung; Sicherheitsverwahrung und Unterbringung in einem psychiatrischen Krankenhaus*). For this reason some double-counting may have occurred.

Greece: 60 months and over = 60 months and less than 240 months.

Latvia: 60 months and over = 5 to 15 years.

Lithuania: 120 months and over = 12 to 20 years.
Other length = 96 to 120 months (not included in these tables).
No figures available for 24 to 96 months.

Romania: Other length = 12 to 120 months (not included in these tables).

Sweden: The brackets are 25-60 months, 61-120 months, 121 and over.

Switzerland: Persons under 18 years of age are not included.
